Live and Study in Your Private Teachers Home in Ireland

You live in your teacher's home so there is no travelling to and from school every day. You will be given a unique opportunity to live the English language. Mealtime conversation, visits, television and social contacts are all in English. Your teacher is concerned only with your difficulties and problems because you will be the only student (unless you prefer our two student formula). You cannot use your own language because you have no contact with other students from your country.

Our teachers are fully qualified and have either a teaching certificate or a university degree (or equivalent).
